We are committed to creating sustainable wealth for our investors by diversifying our portfolio of investments, contributing to the Bahrain Economic Vision 2030. GFH commits to incorporating ESG issues into investment analysis and decision-making processes. GFH's Business Units are responsible for taking ESG forward and ensuring its implementation across the investment portfolio where possible and practical. The Business Units shall report regular progress updates regarding the implementation of this Policy to the ESG Committee. Business Units shall analyse and set a dialogue on ESG objectives and risks before making a decision, whilst taking into account return on investments.

Sustainable Performance

We pursue a diversified asset allocation strategy to adapt to the multitude of challenges in an ever-changing macro environment whilst working closely with our stakeholders to realistically meet expectations. We developed a strong and consistent ability to identify, successfully bring to market and capitalize on a wide range of solid investment opportunities in some of the world's most dynamic markets and sectors. This approach signifies the Group's investment insights and commitment to increase the value of its assets, and continue to achieve a solid financial performance that reflects to its investors and shareholders.

ESG initiatives

Environmental Management

We believe that tackling environmental issues, such as climate change, environmental degradation and pollution should be part of every responsible business' agenda. GFH aspires to act in a manner that minimises the detrimental environmental impacts of its operations. We also take into account the environmental impact of our investments and financing activities, including greenhouse gas emissions, waste management, and resource use, as well as to prioritize investment opportunities in renewable energy, low-carbon transportation, and other sustainable infrastructure projects that contribute to the reduction of greenhouse gas emissions. We will engage with our clients to encourage sustainable business practices and promote the transition to a low-carbon economy.

In-Office Recycling Program:

GFH has partnered with a recycling company to arrange for recycling stations across all office floors to support responsible disposal of paper, plastic and general waste.

Elimination of Single-Use Water Bottles:

As part of our commitment to protecting the environment and focusing more on eco-friendly workplace, an internal campaign was launched where all staff has been provided with high-quality stainless steel recycled water bottles in efforts to eliminate single-use plastic bottle consumption in the office. As part of our investment approach and its indirect impacts, we consider helping minimise the footprint of our investee companies as part of our overall responsibility. Thus, we encourage our investees to manage their environmental impacts in a systematic manner and pursue measures that continuously improve their respective environmental performances. Examples of some of the best practices adopted by GFH investee companies.

ESG initiatives

Energy Management

To reduce climate impacts and increase operational efficiency, we regard energy management as crucial. We strive to reduce our environmental footprint due to energy consumption by combating energy waste by raising awareness, investing in energy efficiency measures, and continuously tracking our performance. Our efforts in this regard helped us reduce our energy intensity approximately by 14% from 2021 to 2022.

Sustainable Procurement

Through the approved supplier procurement methodology, measures are being taken to reduce the amount of packaging consumed by the company. This includes but is not limited to, the reduction in consumption of plastic bottles, the distribution of company issued refillable water bottles as well as the use of non-plastic eating utensils. We stand up for basic human rights and refrain from engaging in business ventures that violate such rights. When possible, we choose to cooperate with local suppliers to help community development and lessen negative environmental effects. In 2022 the spending on local suppliers increased 35% compared to 2021.

GFH Financial Group Reports Results for the first half of 2023

Attendees from GFH Financial Group:

Mr. Surya Hariharan, Chief Financial Officer

A very good afternoon and warm welcome to GFH Financial Group's results presentation for the first half of 2023. My name is Surya Hariharan and today I am joined by my colleagues from the senior management team on the call.

We are pleased to announce another quarter of enhanced performance and results including continued growth in the Group's income and profitability. Against a less certain market and ongoing volatility across global markets, the diversity of our business lines and the expertise of our teams ensured that we are working well in such economic cycles.

Let me provide you with the key milestones achieved by the Group during the first half of 2023 –

- Net profit attributable to shareholders of US\$54.6 million up by 29.4%.
- Consolidated net profit for the period of US\$57.2 million, an increase of 26.0%.
- Rise in total income for the period by 42.3% to US\$173.8 million.
- Growth in total assets by 5.9% to US\$10.3 billion
- Increase in operating expenses by 31.4% during the period to US\$78.3 million
- Increase in finance expenses in line with the rising rate environment to US\$ 31.4 million during first half of 2023 from US\$ 20 million during first half of 2022.
- Capital adequacy ratio of 15.2%
- Total assets and assets under management increased to US\$18.8 billion

Key highlights of our performance for the second quarter of 2023 compared to similar period in 2022 were as follows –

- Net profit attributable to shareholders of US\$30.6 million up by 32.5%.
- Consolidated net profit for the period of US\$32.8 million, an increase of 26%.
- Rise in total income for the period by 54.7% to US\$86.8 million.
- Increase in operating expenses by 47.1% during the period to US\$37.2 million
- Increase in finance expenses in line with the rising rate environment to US\$ 10.6 million during second quarter of 2023 from US\$ 9.1 million during second quarter of 2022

Our strength was reflected across verticals, including our investment banking, commercial banking, and treasury and proprietary business lines.

Highlights of the contribution by each of the business lines were as follows –

Investment Banking – Investment banking, which remains our core business line, contributed roughly half of the total income of the Group for the period. GFH was successful in placing 4 private equity/real estate deals during first half of 2023 generating an income of US\$45.4 million for second quarter and US\$90.5 million for the first half of the year. Investment banking income grew by more than 100% during the first half of 2023. Our diverse investment portfolio, which spans the GCC, UK, Europe, and the US, continued to perform robustly, with our strategy of targeting defensive, recession-proof sectors once again proving its effectiveness in creating value for investors and shareholders in the face of significant headwinds. We have also built a strong pipeline of exciting deals for the rest of the year.

Commercial Banking – We realised growth in contribution from our commercial banking subsidiary, Khaleeji Bank, which recorded a net profit of US \$ 18.44 million during the first half of 2023. Our stake in Khaleeji Bank has enhanced our diversity of results. Khaleeji Bank’s gross income contributed 23.7% of the total income of the Group.

Treasury and Proprietary investments – Contribution from Treasury and proprietary investments increased during the first half of 2023 compared to first half of 2022 by 4.6%. This business line contributed 24% of the total income of the Group. All our investments within this portfolio continue to perform in line with our strategy. However, the rising finance costs, in line with the growing rate environment has impacted the net spread of the treasury performance. We continue to monitor the markets closely and accordingly evaluate our strategy relating to this business line.

The Group’s total assets at end of first half of 2023 stood at US\$10.3 billion, compared with US\$9.8 billion on 31 December 2022, an increase of 6%. The primary increase is due to the increase in treasury portfolio of the Group. The Group’s liabilities declined from US\$7.5 billion as at 2022-year end to US\$7.1 billion at 30 June 2023. The liabilities raised through money market funds have been actively deployed in the liquid asset portfolio of the Bank.

Total equity attributable to shareholders dropped from US\$997 million at 31 December 2022 to US\$ 974 million at end of first half of 2023. The primary movement in shareholders’ equity was the current period’s profitability, dividends approved by the shareholders for 2022 and changes in treasury shares.

Our performance translates into an annualised return on equity of 11.2% and return on assets of 1.2%. Turning to regulatory ratios, our capital adequacy ratio was at 15.2%, Liquidity coverage ratio at 237% and Net Stable Funding ratio at 105%. All our regulatory ratios are above the prescribed thresholds.

We entered 2023 from a position of strength and we continued to show our strategy performs well across the cycle. We have been able to undertake key investments during 2023 and successfully placed 4 real estate/private equity products with investors, during this period. Our commercial banking subsidiary was able to successfully adapt to high-interest rates during the period and achieved sound growth. Similarly, our Treasury business rebalanced its portfolio and achieved good performance during the first half of the year. We aim to further build our portfolio of income generating assets in the GCC, where economic growth is expected to continue in the coming periods.

Having entered the year with good momentum, we look forward to building on these results and generating even greater value for our investors and shareholders in the forthcoming periods.

I would like to thank you for your time this afternoon and open the floor for any questions you may have.

نما دخل الخدمات المصرفية الاستثمارية بأكثر من 100% خلال النصف الأول من عام 2023. استمرت محافظتنا الاستثمارية المتنوعة، التي تمتد عبر دول مجلس التعاون الخليجي والمملكة المتحدة وأوروبا والولايات المتحدة، في الأداء القوي، مع استراتيجيتنا التي تستهدف القطاعات المنخفضة المخاطر والمقاومة للركود، لتثبت مرة أخرى فعاليتها في خلق قيمة للمستثمرين والمساهمين في مواجهة تقلبات الأسواق. لقد قمنا أيضاً بتجهيز مجموعة قوية من المعاملات الجذابة لبقية العام.

الأعمال المصرفية التجارية - لقد حققنا نمواً في مساهمة شركتنا للأعمال المصرفية التجارية التابعة لنا، خليجي بنك، الذي سجل ربحاً صافياً 18.44 مليون دولار أمريكي خلال النصف الأول من عام 2023. وقد عززت حصتنا في خليجي بنك تنوع نتائجنا، كما ساهم إجمالي الدخل لخليجي بنك بنسبة 23.7% من إجمالي دخل المجموعة.
